Information Sources in Law Sep 20 2022 The aim of each volume of this series Guides to Information Sources is to reduce the time which needs to be spent on patient searching and to recommend the best starting point and sources most likely to yield the desired information. The criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it. The series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources.

National Legal Presumptions and European Tax Law Mar 14 2022 Determining the burden of proof in tax law cases is usually what contributes most to the case’s outcome. Legal presumptions – those inferences that are laid down in the law rather than being the result of the court’s reasoning – play a critical role in such determinations. This very useful book uncovers the details of such presumptions which are shared among European tax law systems, thus revealing a remarkably clear path through the course of a tax law case in any Member State in the context of EU law. Referring to both legal theory and relevant case law, the author assesses whether and to what extent national legal presumptions may be deemed to be consistent with EU law, and when this is not the case, under which conditions they may be reconciled. The analysis unfolds along such avenues as the following: – the meaning of the concept of legal presumption as developed by legal theory and authoritative academic literature; – special considerations regarding presumptions in customs law, VAT, and direct taxation (harmonized and unharmonized); – how tax authorities use presumptions to simplify the assessment of tax and tackle tax avoidance or evasion, particularly in cross-border situations; – justifications asserted by the Member States in relation to restrictions on fundamental freedoms; and – standards of compatibility for national legal presumptions with EU law resulting from CJEU case law. With reference to national experience, using Italy and Belgium as specific examples, the analysis culminates in an elaboration of criteria for legal presumptions capable of meeting the test of compatibility with EU law. As an in-depth investigation of possible inconsistencies and conditions for the coexistence of EU and Member State tax law, this book will be welcomed by both taxation authority officials and taxpayer counsel. The understanding it imparts on the actual impact of EU law on the recourse to legal presumptions by national tax legislatures and the protection of European taxpayers is unsurpassed.

A History of Law in Europe May 16 2022 The first English translation of a comprehensive legal history of Europe from the early middle ages to the twentieth century, encompassing both the common aspects and the original developments of different countries. Diritto processuale civile Feb 19 2020 Il Trattato sviluppa in 4 tomi lo studio sistematico degli istituti di diritto processuale civile: vengono analizzate le norme generali del processo di primo grado e delle impugnazioni, i processi speciali (il processo sommario di cognizione, il processo del lavoro, e l’arbitrato), il processo esecutivo e il processo cautelare. La trattazione comprende, inoltre, l’analisi delle seguenti fondamentali discipline, pur non contenute nel codice di rito: - le norme sulla competenza internazionale e il riconoscimento delle sentenze, previste nella l. 218/1995 e nel regolamento UE 1215/2012; - l’impugnazione delle delibere societarie (art. 2378 c.c.) e il procedimento ex art. 2409 c.c.; - i profili processuali degli istituti della interdizione, inabilitazione e amministrazione di sostegno; - le norme sulla mediazione (d.lgs. 28 del 2010) e la negoziazione assistita (d.l. 132 del 2014). L’Opera è un utile strumento di consultazione anche pratica, che pone una minuziosa attenzione ai recenti interventi legislativi e ai più significativi orientamenti della giurisprudenza contemporanea, in tema, ad esempio, di liberalizzazione dei servizi postali per le notificazioni a mezzo posta (l. 14.8.2017, n. 124 e l. 27/12/2017, n. 205); di riforma delle competenze del giudice di pace (D.Lgs. 13.7.2017, n. 116); di processo civile telematico, di azioni di classe, compensazione delle spese del giudizio (Corte Cost. n. 77/2018); ammissibilità della mutatio libelli della domanda giudiziale (Cass. S.U. 15.6.2015, n. 12310) e, da ultimo, le novità introdotte dal decreto semplificazione in materia di esecuzione forzata nei confronti dei soggetti creditori della pubblica amministrazione (D.L. 14.12.2018, n. 135).

Women and Men in Love Aug 07 2021 It has often been assumed that Europeans invented and had the exclusive monopoly over courtly and romantic love, commonly considered to be the highest form of relations between men and women. This view was particularly prevalent between 1770 and the mid-twentieth century, but was challenged in the 1960s when romantic love came to be seen as a universal sentiment that can be found in all cultures in the world. However, there remains the historical problem that the Europeans used this concept of love as a fundamental part of their self-image over a long period (traces of it still remain) and it became very much caught up in the concept of marriage. This book challenges the underlying Eurocentrism of this notion while exploring in a more general sense the connection between identity and emotions.

Citizenship of the Union and Freedom of Movement of Persons Nov 17 2019 Citizenship of the Union and Freedom of Movement of Persons, sets out to analyse in detail the various provisions of Community law which confer upon individuals the right to move about, reside and work in the Member States. It also examines the procedural safeguards which set those fundamental rights apart from any deriving from other international bodies or organisations and point up the originality of the Community system. Citizenship of the Union entails freedom of movement under the current Treaties and also under the Treaty of Lisbon, in which the unified treatment of the rules, by contrast with the existing pillars of Community and European Union law, might be expected to confer new impetus on the realisation of the area of freedom, security and justice. If there is truly to be such an area, there must be unified, not merely coordinated action. Judicial cooperation must be tightened in favour of the Union and, more importantly, individuals, be they Community citizens or indeed nationals of third countries, given the increasing trend towards a kind of integration which focuses less on formal data such as nationality and more on factors such as residence, employment and social integration. The book pays particular attention to this last aspect and its political and legal implications. The "communitarisation" of immigration policy (the new Title IV of the EC Treaty mentioned above) and the perspectives opened up by the enlargement to 27 Member States (and more) and by the Treaty of Lisbon, provide the framework for the treatment given in the present work.

Droit processuel - 11e ed. Jun 24 2020 La présente édition (la 11e) sort en pleine actualité des conséquences du Brexit au 1er janvier 2021 et des questions que certains se posent quant au rôle de l’Europe dans la protection de leurs droit fondamentaux, en coordination avec les instruments nationaux qui symbolisent la souveraineté des 27 États qui composent désormais l’Union européenne. Sous ce regard, elle apporte des réponses à leurs légitimes interrogations. Au-delà de l’Europe, une place particulière a été faite à la jurisprudence du Conseil constitutionnel, notamment celle issue des questions prioritaires de constitutionnalité, de plus en plus nombreuses, notamment en matière pénale ou pour connaître des suites de la proclamation de l’état urgence sanitaire au printemps 2020 qui a conduit la France à restreindre certaines libertés, à aménager l’accès au juge et le déroulement des procès, voire l’exécution des jugements.

Goals of Civil Justice and Civil Procedure in Contemporary Judicial Systems Jul 26 2020 This book is a collection of papers that address a fundamental question: What is the role of civil justice and civil procedure in the various national traditions in the contemporary world? The book presents striking differences among a range of countries and legal traditions, but also points to common trends and open issues. It brings together prominent experts, professionals and scholars from both civil and common law jurisdictions. It represents all main legal traditions ranging from Europe (Germanic and Romanic countries, Scandinavia, ex-Socialist countries) and Russia to the Americas (North and South) and China (Mainland and Hong Kong). While addressing the main issue – the goals of civil justice – the book discusses the most topical concerns regarding the functioning and efficiency of national systems of civil justice. These include concerns such as finding the appropriate balance between accurate fact-finding and the right to a fair trial within a reasonable time, the processing of hard cases and the function of civil justice as a specific public service. In the mosaic of contrasts and oppositions special place is devoted to the continuing battle between the individualistic/liberal approach and the collectivist/paternalistic approach – the battle in which, seemingly, paternalistic tendencies regain momentum in a number of contemporary justice systems.

The EU Succession Regulation Feb 01 2021 The European Succession Regulation is a landmark in the field of EU private international law. It unifies the conflicts of laws, jurisdiction and recognition of foreign judgments and some other legal instruments in the field of succession and wills. This volume provides an article-by-article commentary on the individual provisions of the Regulation, introduced by an overview of its general framework and underlying principles. As a reference tool for the Regulation, this book is intended to promote a high standard of interpretation and application. With contributions from leading scholars in the field, it uses a comparative approach in its analysis to enrich the academic debate and highlight the problems likely to arise in the practical application of the Regulation.

Dimensions of Evidence in European Civil Procedure Jun 17 2022 Greater efficiency in civil dispute resolution is very much dependent on organized but fair fact-finding. Under European law, however, no clear-cut categorisation of means of evidence exists as yet, and significantly diverging interpretations persist of what is considered 'evidence' in the sense of the foundational Council Regulation (EC) No. 1206/2001 (EER). The EER fails to provide comprehensive rules for many other aspects of evidence taking, pointing instead to national legislation for solutions. As long as evidentiary rules remain different from country to country, there is an inherent risk of conflict of laws between different systems in the course of cooperation between courts in cross-border matters, leading to mistrust amongst judiciary and other participants in the proceedings. Focusing on national rules, and using a comparative method which takes into consideration legal experiences from all legal circles in the EU, this book explains and analyses how the law of evidence works in Europe today. The authors draw on the vast base of relevant information collected in twenty-seven Member States by national reporters. Following the classical enumeration of types of evidence – production of documents, examination of witnesses, expert evidence, inspection by the judge, and examination of the parties – chapters encompass such issues and topics as the following. - judicial cooperation in cross-border cases; – general principles in evidence taking (the right to be heard, oral vs. written form, directness of evidence, burden of proof); – judges' case management powers regarding evidence; – means of evidence; – extent of influence of traditional principles and evidentiary rules on electronic evidence; – application of communication technology in cross-border proceedings; – legal costs; – language; – inadmissible evidence; and – instances in which a court can refuse a request for evidence. The authors offer well-grounded recommendations on requested judge's entitlements, direct and convenient communication, cost issues, revised provisions concerning language obstacles, unification of presumptions, and much more. Armed with the wide-ranging knowledge presented here, practitioners handling civil cases anywhere in Europe will derive great practical benefit from this book. As a masterful synthesis of how evidence is used in national courts in EU Member States, and of how that use is changing, the book will be greatly valued as a unique resource by legal scholars and academics. With featured recommendations it can contribute to the development of mutual trust among the national courts inside the EU as well as trust among policymakers and national courts.

EU Cross-Border Succession Law Aug 19 2022 With cross-border successions becoming increasingly common in the context of the European Union, this timely book offers a systematic practical analysis of how cross-border successions should be treated, including examination of which courts may establish jurisdiction over succession disputes and which law governs such disputes. Studying cross-border successions in the context of estate planning and in the opening and liquidation of a succession, it examines the specificities of the European Certificate of Succession, contextualising it within its interface with the national laws and practice of EU Member States.

Declining Jurisdiction in Private International Law Apr 22 2020 The subject of declining jurisdiction in private international law is one of enormous practical importance and academic interest. It is also a topic where a comparative approach is particularly revealing. This book contains the 17 national reports and the general report on the subject of Rules for declining to exercise jurisdiction: Forum Non Conveniens, Lis Pendens'. The Reports were held in Athens/Delphi in August 1994. The list of nations for which a report has been prepared is as follows: Argentina, Brazil, Canada, Quebec, Finland, France, Germany, Great Britain, Greece, Israel, Italy, Japan, The Netherlands, New Zealand, Sweden, Switzerland, and USA. This book by bringing together all the reports on 'Declining Jurisdiction' provides a unique insight into this topic, and, dealing as it does with a key aspect of private international law, fits very well into the Oxford series of monographs on private international law.

Procedure and Evidence in International Arbitration Jul 06 2021 Central to the book's purpose is the procedural challenge facing arbitrators at each and every stage of the arbitral process when fairness arguments conflict with efficiency concerns and trade-offs must be determined. Some key themes include how can a tribunal be fair, and in particular be neutral, if parties are so diverse? How can arbitration be made efficient and cost-effective without undue inroads into fairness and accuracy? How does a tribunal do what is best if the parties are choosing a suboptimal process? When can or must an arbitrator ignore procedural choices made by the parties? The author thoroughly evaluates competing arguments and adds his own practical tips, expertly synthesizing and engaging with the conference literature and differing authors' views. He identifies criteria that offer a harmonized approach to each stage of the arbitral process, with particular attention to such aspects of international arbitration as: appropriate trade-offs between flexibility and certainty; the rights, duties and powers of arbitrators; appointment and challenge of arbitrators; responses to 'guerilla' tactics; drafting of arbitration agreements, including specialty clauses; drafting of required commencement notices and response documents; set-off; fast track arbitration and other efficiency options; strategic use of preliminary conferences and timetabling; online arbitration; multi-party, multi-contract, class arbitration; amicus and third party funders; pre-arbitral referees and interim relief; witness evidence, both factual and expert; documentary evidence, production obligations, and challenges to production; identifying applicable law; and remedies and costs.

Droit processuel. Droits fondamentaux du procès - 10e éd. Mar 02 2021 La présente édition (la 10e) sort en pleine actualité des questions que certains se posent quant au rôle de l'Europe dans la protection de leurs droit fondamentaux et l'avenir de la jurisprudence européenne et apporte des réponses à leurs légitimes interrogations. Au-delà de l'Europe, une place particulière a été faite à la jurisprudence du Conseil constitutionnel, notamment celle issue des questions prioritaires de constitutionnalité. Pleine actualité encore avec le projet d'une réforme de la Justice, dans son organisation et dans ses procédures, déposé au sénat le 20 avril 2018 et dont le Sénat doit connaître cet automne. Le modèle, celui du procès équitable, autour duquel s'est construit le droit processuel moderne, va peut-être connaître de profonds bouleversements avec la numérisation de la Justice que le projet du 20 avril envisage, la montée en puissance des modes alternatifs de règlement des litiges, la justice dite prédictive, etc. Raison de plus pour revenir aux fondamentaux, à une réflexion plurielle de spécialistes de ces questions, afin de garantir l'universalité et l'utilité du procès équitable, l'ardente obligation pour un État, de garantir les droits de tous, au-delà des péripéties et des turbulences d'une époque.
