"WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making

you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter. Linda and Richard Eyre stress that it's never too soon-or too late-to start discussing sex and values with your children, and they've got proven strategies to make it easier. For parents who want to go beyond the birds and the bees talk, *How to Talk to Your Child About Sex* provides thoughtful, clear, specific guidance on when and, most important, how to help children begin to learn and understand sex, love, and commitment from the most positive viewpoint possible. After you've mastered the unique "bag of little tricks" in this book, you will know *How to Talk to Anyone at Work!* In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading) From publishing legends Phyllis E. INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade. Malcolm Gladwell, host of the podcast *Revisionist History* and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: *The Financial Times*, *Bloomberg*, *Chicago Tribune*, and *Detroit Free Press* How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict

and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times. "In *Someone To Talk To*, Mario L. Small follows a group of graduate students as they cope with stress, overwork, self-doubt, failure, relationships, children, health care, and poverty. He unravels how they decide whom to turn to for support. and he then confirms his findings based on representative national data on adult Americans."--Jacket. *You Can Stop Fighting With Your Children!* Here is the bestselling book that will give you the know-how you need to be more effective with your children and more supportive of yourself. Enthusiastically praised by parents and professionals around the world, the down-to-earth, respectful approach of Faber and Mazlish makes relationships with children of all ages less stressful and more rewarding. Their methods of communication, illustrated with delightful cartoons showing the skills in action, offer innovative ways to solve common problems. Want to know the easy way to approach and make conversation with new people? In this book you'll discover simple ways to ensure you always have something interesting to talk about. Do you know How to Talk to Anyone? Do you want to know How to Talk to Anyone? You probably know the feeling. An important person comes up to you -- someone you look up to, maybe your boss, a politician or a pastor. Your heart races. You can't believe he is giving you the time of day. "How's the wife and kids?" he asks. Your world crumbles. You...have no wife and kids. It doesn't have to be someone important who is speaking to us to make us feel important...or not. Even the person sitting next to us on the bus has the ability to make us feel significant, or, like we don't matter at all. Regardless of how we may try to wiggle around it, while the ultimate goal of your communication may be to inform or express, you are never going to succeed at doing so if the person you are talking to feels you have no value for him or her. If you think about it, your reaction is, no doubt, the same. After that "important person" greeted you and got up to give his speech or sermon, did you want to listen to it? Every (good) speaker knows that the best delivery is one that makes each person in the audience feel every word was just for him or her. If the speaker bombed out when speaking to you one-on-one, chances are his speech was a bomb in your book as well. Why? You did not feel significant. You didn't matter to him and therefore, his matters don't matter to you either. In the art of effective conversation as well as public speaking, it is imperative to take an interest in the person or persons you are talking to. Know what they like and what they don't like. Learn what interests them. Above all, don't ask about their wife and kids if they don't have any. Do your homework and you'll ace the test! When you are uptight about speaking, be it publicly or privately, people sense your fear. While you work on getting over your anxiety of talking through measures taken in this book, you can fake it until you make it. Just pretending that you are not so nervous will help relax the person or persons you are speaking to and it might calm you as well. In this book we will discuss the following topics: - The Basics of Communication - Effective Oral Communication - Body Language - Public Speaking - And Many More! Are you excited? Look no more! Order our book now and know everything about How to Talk to Anyone! America's best-known master of conversation unveils his secrets for getting the talk flowing smoothly in any situation.

Welcome to the world of Ann Coulter. With her monumental bestsellers *Treason*, *Slander*, and *High Crimes and Misdemeanors*, Coulter has become the most recognized and talked-about conservative intellectual in years—and certainly the most controversial. Now, in *How to Talk to a Liberal (If You Must)*, which is sure to ignite impassioned debate, she offers her most comprehensive analysis of the American political scene to date. With incisive reasoning, refreshing candor, and razor-sharp wit, she reveals just why liberals have got it so wrong. In this powerful and entertaining book, which draws on her weekly columns, Coulter ranges far and wide. No subject is off-limits, and no comment is left unsaid. After all, she writes, "Nothing too extreme can be said about liberals because it's all true." *How to Talk to a Liberal (If You Must)* offers Coulter's unvarnished take on: •The essence of being a liberal: "The absolute conviction that there is one set of rules for you, and another, completely different set of rules for everyone else." •John Kerry: "A reporter asked Kerry, 'Are you for or against gay marriage?' As usual, his answer was, 'Yes.'" •Her 9/11 comments: "I am often asked if I still think we should invade their countries, kill their leaders, and convert them to Christianity. The answer is: Now more than ever!" •The state of the Democratic Party: "Teddy Kennedy crawls out of Boston Harbor with a quart of Scotch in one pocket and a pair of pantyhose in the other, and Democrats hail him as their party's spiritual leader." •Her philosophy for arguing with liberals: "Tough love, except I don't love them. My 'tough love' approach is much like the Democrats' 'middle-class tax cuts'—everything but the last word." •The "Treason Lobby": "Want to make liberals angry? Defend the United States." In this full-on Coulterpalooza, you'll find the real, uncensored Ann Coulter. A special concluding chapter even includes the pieces that squeamish editors refused to publish—"what you could have read if you lived in a free country," says Coulter. *How to Talk to a Liberal (If You Must)* is a stunning reminder of why Ann Coulter's commentary has achieved must-read status. "A fluent polemicist with a gift for Menckenesque invective...and she can harness such language to subtle, syllogistic argument."--Washington Post Book World "Ann Coulter is a trailblazer."--Los Angeles Times Book Review "She can zing one-liners faster than Zeus can throw lightning bolts."--Kansas City Star "You know those pundits who bore you to tears trying to balance everyone's point of view? Coulter isn't one."--People "A great deal of research supports Ms. Coulter's wisecracks."--New York Times "The conservative movement has found its diva."--Bill Maher "Ann Coulter is a pundit extraordinaire."--Rush Limbaugh Also available as a Random House AudioBook and as an e-Book In this illuminating guide to communicating with your child's doctor, pediatrician Christopher M. Johnson shows parents how to talk more effectively to their doctors about their children's health.
