The perfect balance of high-end French pastries and home baking. This elegant, must-have cookbook offers exceptional recipes with exquisite results--perfect for passionate home bakers. An updated version of the best-selling debut from Giselle Courteau, this beautiful cookbook is packed with stunning recipes with spectacular results. The ideas from this cookbook can be traced back to Giselle's experiences teaching English in Japan in 2007. It was in Tokyo that Giselle, a self-taught baker, first discovered French macarons and became determined to replicate the delicate confections at home. After experimenting with hundreds of different recipes, all in a tiny toaster oven, Giselle finally perfected a macaron recipe that inspired her to open a French Patisserie in Canada in 2009. That macaron recipe is featured in this cookbook and macarons have been (and continue to be) the bestselling item at Duchess Bake Shop since it first opened. Macarons aside, Giselle's expertise in all things French patisserie is clear throughout this cookbook. Inside, you'll find standout recipes for Pains au Chocolat, Brioche, and Tartiflette. The cookbook also features contemporary twists on classics

including The Duchess, a modern take on the Swedish Princess Cake; Duchess St. Honoré, a combination of two pastries (puff and pâte à choux); and delicious Canadian-inspired pastries such as Farmer's Saskatoon Pie, Butter Tarts, and the Courteau Family Tourtière. This new edition will also include Duchess Bake Shop's famed Buche de Noel, a perfect recipe for the holiday season! With ten chapters of approachable recipes that have been tested and re-tested, Giselle's instructions demystify the baking process. This cookbook will inspire readers to bake with confidence using a range of baking equipment, techniques, and ingredients. The book's refined design captures the sophistication and chic decadence of Giselle's beloved bake shop. Takes students as well as lovers of food preparation beyond the basics to more complex recipes, subtler preparation and plating techniques. It includes both color and black and white photographs to illustrate concepts. Following two introductory chapters which detail the development of modern cookery, modern cooking styles, mise en place, finishing, and presentation, it goes on to cover sauces; soups; first courses; fish and other seafood; poultry and feathered game; beef, lamb, pork and veal; variety meats, sausages and game; vegetables; and cold foods. Recipes are given in two quantities--4 and 16 portions. Includes recipes from Le Cordon Bleu cooking school, nutritional analyses, safety information, a glossary of cooking terms, and American, British, and French culinary vocabulary.
