This book is a collection of lesson plans that I developed between September and December of 2018. The lesson plans were inspired by the work I have been doing on developing empathy and the creative use of images to help activate students' sense of empathy. I've had a long love of using images in the language classroom and see them as a key ingredient in sparking students' imagination as well as supplying a window into a much wider and often very different world. I have always found that images have the power get students speaking and particularly images of people can stimulate their curiosity and help to produce a wide range of questions. The tasks and activities in these lesson plans should also help to develop your students' vocabulary and fluency. Each of the lesson plans includes a digital presentation that you can use with a data projector or you can share with students so that they can access the materials on their own devices. This book contains the following ten plans: 1. A Girl by the Window 2. The Crime 3. Dreams and Ambitions 4. Friendship and Feet 5. The Bear in Bed 6. The Cabin 7. The Girl and the Tiger 8. Instead, Goal-Driven Lesson Planning is intended to empower teachers and help them create a principled framework for their teaching—a framework that will shape the varied activities of the ESL classroom into a coherent teaching and learning partnership. After reading this book, teachers and prospective teachers will be able to articulate their individual teaching philosophies. Goal-Driven Lesson Planning shows readers how to take any piece from English language materials—an assigned text, a random newspaper article, an ESL activity from a website, etc.—and use it to teach students something about language. Readers are walked through the process of reflecting on their role in diagnosing what that “something” is—what students really need—and planning how to get them there and how to know when they got there in a goal-driven principled manner. This book has chapters on the theory of setting specific language goals for students; how to analyze learner needs (including an initial diagnostic and needs-analysis); templates to use when planning goal-driven English language lessons; explicit instruction on giving corrective feedback; how to recognize and assess student progress; and the mechanics and logistics that facilitate the goal-driven language classroom. Effective teaching begins with effective lesson planning. Lesson Planning takes a complex, often abstract process and makes it an accessible and concrete practice for language teachers in any context. Excerpt from Daily Lesson Plans in Language: For Second and Third Years of Elementary Schools But written expression must follow closely and should be taken up in the second and third grades. At first the spelling and writing may be quite faulty, but must be overlooked to some extent. Written expression and frequent drills will in a short time remedy this natural defect. The plans of this book are based on the outlines for the second and third years of the Illinois State Course of Study, and the material for every lesson is given. They are adaptable, however, to any course of study. The Perry or Brown pictures may be used for picture studies at but a very small cost. Every child should have a composition tablet in which to write and keep each day's work. Acknowledgments are made to authors and publishers of poems and stories from which selections have been used. Drawing on extensive experience and research in the field, it offers detailed explanation of basic lesson planning methods and the principles that underpin them, illustrated by worked examples of well-planned lessons. The book shows how to progress from planning smaller activities to full lessons to sequences of lessons, and how to ensure progression for your students. Specific aspects of language learning such as grammar and culture are explored, together with ideas for how to make your planning skills more effective in long-term collaborative and reflective practice. Starting from a presentation, practice, production (PPP) model of language teaching, the book aims to: provide structured, practical starting points in lesson planning for beginning teachers of modern languages (ML); deepen knowledge and understanding of ML as a subject and how it is learnt (pedagogical subject knowledge), in order to inform and support planning decisions; develop understanding of lesson planning as part of a planning cycle; enhance understanding of strategies and professional development opportunities to promote the further development of planning abilities. "Never before, in the entire history of the American theater, has so much of the truth of Black people's lives been seen on the stage," observed James Baldwin shortly before *A Raisin in the Sun* opened on Broadway in 1959. This edition presents the fully restored, uncut version of Hansberry's landmark work with an introduction by Robert Nemiroff. Lorraine Hansberry's award-winning drama about the hopes and aspirations of a struggling, working-class family living on the South Side of Chicago connected profoundly with the psyche of Black America—and changed American theater forever. The play's title comes from a line in Langston Hughes's poem "Harlem," which warns that a dream deferred might "dry up/like a raisin in the sun." "The events of every passing year add resonance to *A Raisin in the Sun*," said *The New York Times*. "It is as if history is conspiring to make the play a classic." This "How To" book is different. Unlike every other book you'll read with titles like "How To Craft The Perfect Lesson Plan in 165 Incredibly Simple Steps", this book is different. It's a simple "How To" guide for creating a lesson plan that's right for you and your students and also an easy to follow workbook. We'll discuss what exactly a lesson plan is and why you even need one. We'll then go on to look at the process for creating a lesson plan, including the questions you need to consider (so that you don't forget anything important!) Then we've got 60 lesson plan templates for you to follow, with a double-page layout so that you have plenty of space for all your notes. We've even included some 'Further Notes' pages at the back for anything else you need to jot down. Teaching students of any age is both a challenging and daunting prospect. With a well-thought-out lesson plan in place (anticipating the questions you'll face AND the answers) it will be much less daunting and much more exciting. Good luck! Scientific Essay from the year 2013 in the subject English - Pedagogy, Didactics, Literature Studies, University of Jaume I, language: English, abstract: Following the recommendations made by Farrell (2002) about how to elaborate appropriately a lesson plan, the aim of the present paper is that of presenting a sample of a lesson plan for the teaching of a particular speech act (i.e. refusals). The rationale behind this selection is based on the idea this type of speech act is seen as one of the most face-threatening acts, and consequently learners need to obtain a particular expertise to outperform them appropriately (Eslami, 2010). Audiovisual material (i.e. films) will be used for the elaboration of the activities within the lesson plan. We have selected this type of material since many authors have suggested that this type of material appears to be very beneficial for providing learners with contextualised examples of language (Alcón, 2005; Rylander, 2005; Martínez-Flor, 2007; Martínez-Flor & Usó-Juan, 2010; Beltrán-Palanques, 2011). The present paper is divided into three main parts: the first part will be deal with the main components of lesson plan, the second part will provide an overview of different type of materials that might be used for the teaching of language classroom, and finally, a sample of a daily lesson plan for the teaching of the speech act of refusals will be provided. From the #1 bestselling author of Swindle and Slacker, Restart is the spectacular story of a kid with a messy past who has to figure out what it means to get a clean start. "[This book] provides a step-by-step approach to lesson planning. Although easily accessible, the ideas presented are rooted in established educational theory. It contains both thought-provoking analysis on the rôles of the teacher and clear explanations of key principles. The chapters are based on real life questions such as: What can go into a lesson or course? How do people learn? How can I teach? What materials can I choose? How can I get started on planning? This book will help inexperienced teachers gain confidence in establishing sound working practices and will give more experienced teachers ideas to refresh their routines." -- book jacket.
