Front Desk joins the Scholastic Gold line, which features award-winning and beloved novels. Includes exclusive bonus content! Incredibly Strange Films is a functional guide to important territory neglected by the film-criticism establishment, spotlighting unhailed directors -- Hershell Gordon Lewis, Russ Meyer, Larry Cohen, Ray Dennis Steckler, Ted V. Mikels and others -- who have been critically consigned to the ghettos of gore and sexploitation films. In-depth interviews focus on philosophy while anecdotes entertain as well as illuminate theory. The guide includes biographies, genre overviews, filmographies, bibliography, quotations, an A-Z of film personalities, lists of

recommended films, sources, index, as well as 172 photos. Contributions by Carl Abbott, Jacob Babb, Marleen S. Barr, Michael Fuchs, John Glover, Stephen Joyce, Sarah Lahm, James McAdams, Cynthia J. Metropolis, Gotham City, Mega-City One, Panem's Capitol, the Sprawl, Caprica City—American (and Americanized) urban environments have always been a part of the fantastic imagination. *Fantastic Cities: American Urban Spaces in Science Fiction, Fantasy, and Horror* focuses on the American city as a fantastic geography constrained neither by media nor rigid genre boundaries. *Fantastic Cities* builds on a mix of theoretical and methodological tools that are drawn from criticism of the fantastic, media studies, cultural studies, American studies, and urban studies. Contributors explore cultural media across many platforms such as Christopher Nolan's *Dark Knight* Trilogy, the *Arkham Asylum* video games, the 1935 movie serial *The Phantom Empire*, Kim Stanley Robinson's fiction, Colson Whitehead's novel *Zone One*, the vampire films *Only Lovers Left Alive* and *A Girl Walks Home Alone at Night*, Paolo Bacigalupi's novel *The Water Knife*, some of Kenny Scharf's videos, and Samuel Delany's classic *Dhalgren*. Together, the contributions in *Fantastic Cities* demonstrate that the fantastic is able to "real-ize" that which is normally confined to the abstract, metaphorical, and/or subjective. Consequently, both utopian aspirations for and dystopian anxieties about the American city become literalized in the fantastic city.

"There is no one quite like Barbara Kingsolver in contemporary literature," raves the *Washington Post Book World*, and it is right. She has been nominated three times for the ABBY award, and her critically acclaimed writings consistently enjoy spectacular commercial success as they entertain and touch her legions of loyal fans. In *High Tide in Tucson*, she returns to her familiar themes of family, community, the common good and the natural world. The title essay considers Buster, a hermit crab that accidentally stows away on Kingsolver's return trip from the Bahamas to her desert home, and turns out to have manic-

depressive tendencies. Buster is running around for all he's worth -- one can only presume it's high tide in Tucson. Kingsolver brings a moral vision and refreshing sense of humor to subjects ranging from modern motherhood to the history of private property to the suspended citizenship of human beings in the Animal Kingdom. Beautifully packaged, with original illustrations by well-known illustrator Paul Mirocha, these wise lessons on the urgent business of being alive make it a perfect gift for Kingsolver's many fans. By the author of *Things No One Will Tell Fat Girls* and a heroine of the body image movement, an intimate, gutsy memoir about being a fat woman Jes Baker burst onto the body positivity scene when she created her own ads mocking Abercrombie & Fitch for discriminating against all body types -- a move that landed her on the Today Show and garnered a loyal following for her raw, honest, and attitude-filled blog missives. Building on the manifesta power of *Things*, this memoir goes deeply into Jes's inner life, from growing up a fat girl to dating while fat. With material that will have readers laughing and crying along with Jes's experience, this new book is a natural fit with her irreverent, open-book style. A deeply personal take, *Landwhale* is a glimpse at life as a fat woman today, but it's also a reflection of the unforgiving ways our culture still treats fatness, all with Jes's biting voice as the guide.

Community health workers (CHWs) are an increasingly important member of the healthcare and public health professions who help build primary care capacity. Yet, in spite of the exponential growth of CHW interventions, CHW training programs, and CHW certification and credentialing by state agencies, a gap persists in the literature regarding current CHW roles and skills, scope of practice, CHW job settings, and national standards. This collection of contributions addresses this gap by providing information, in a single volume, about CHWs, the roles CHWs play as change agents in their communities, integration of CHWs into healthcare teams, and support and recognition of the CHW profession. The book supports the CHW definition as defined by the American Public Health Association (APHA), Community Health Worker Section (2013), which states, "A community health worker is a frontline public health worker who is a trusted member of and/or

has an unusually close understanding of the community served.” The scope of the text follows the framework of the nationally recognized roles of CHWs that came out of a national consensus-building project called “The Community Health Worker (CHW) Core Consensus (C3) Project”. Topics explored among the chapters include: Cultural Mediation Among Individuals, Communities, and Health and Social Service Systems Care Coordination, Case Management, and System Navigation Advocating for Individuals and Communities Building Individual and Community Capacity Implementing Individual and Community Assessments Participating in Evaluation and Research Uniting the Workforce: Building Capacity for a National Association of Community Health Workers Promoting the Health of the Community is a must-have resource for CHWs, those interested in CHW scope of practice and/or certification/credentialing, anyone interested in becoming a CHW, policy-makers, CHW payer systems, CHW supervisors, CHW employers, CHW instructors/trainers, CHW advocates/supporters, and communities served by CHWs. Now on Netflix as a 4-part documentary series! “Pollan keeps you turning the pages . . . cleareyed and assured.” —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan

sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives. After several years of small roles and experimental screenwriting during his early career, Jack Nicholson got his big break in 1969 with *Easy Rider*. The next year *Five Easy Pieces* made him a star. Since then the 12-time Academy Award nominee has won Best Actor twice (*One Flew Over the Cuckoo's Nest* and *As Good as It Gets*). This critical study examines each of Nicholson's film roles, as well as his screenwriting and directorial efforts. Fascinating personal insights are provided through interviews with stars such as Mews Small, James Hong, Millie Perkins, Michael Margotta, Shirley Knight, Joe Turkel, Ed Nelson, Hazel Court, the Monkees, several Apollo astronauts, Hell's Angel Sonny Barger, Peter Fonda, Bruce Dern, and many more. (Vocal Selections). Winner of the New York Drama Critics' Circle Award for Best Musical, *The Band's Visit* is a musical adaptation of the 2007 Israeli film of the same name. The Official Novelization based on the *Overcomer* Movie. Contains an inspirational bonus story found only in the e-book edition. Based on the motion picture screenplay by Alex and Stephen Kendrick, *Overcomer* is one of 2019's best inspirational books. In this sports

novel, award-winning author Chris Fabry pens an inspiring family drama that dares to leave you filled with hope, inspired to dream, and asks the question: What do you allow to define you? Life changes overnight for coach John Harrison when his high school basketball team and state championship dreams are crushed under the weight of unexpected news. When the largest manufacturing plant shuts down and hundreds of families leave their town, John questions how he and his family will face an uncertain future. After reluctantly agreeing to coach cross-country, John and his wife, Amy, meet an aspiring athlete who's pushing her limits on a journey toward discovery. Inspired by the words and prayers of a newfound friend, John becomes the least likely coach helping the least likely runner attempt the impossible in the biggest race of the year. Filled with a powerful mix of faith, a twist of humor, and a ton of heart, *Overcomer* will resonate with all ages, races and genders. Her study of this early conservation controversy will fascinate anyone who cares about sea turtles or the oceans in which they live. From ancient metropolises like Pueblo Bonito and Tenochtitlán to the twenty-first century Oceti Sakowin encampment of NoDAPL water protectors, Native people have built and lived in cities—a fact little noted in either urban or Indigenous histories. By foregrounding Indigenous peoples as city makers and city dwellers, as agents and subjects of urbanization, the essays in this volume simultaneously highlight the impact of Indigenous people on urban places and the effects of urbanism on Indigenous people and politics. The authors—Native and non-Native, anthropologists and geographers as well as historians—use the term “Indian cities” to represent collective urban spaces established and regulated by a range of institutions, organizations, churches, and businesses. These urban institutions have strengthened tribal and intertribal identities, creating new forms of shared experience and giving rise to new practices of Indigeneity. Some of the essays in this volume explore Native

participation in everyday economic activities, whether in the commerce of colonial Charleston or in the early development of New Orleans. Others show how Native Americans became entwined in the symbolism associated with Niagara Falls and Washington, D.C., with dramatically different consequences for Native and non-Native perspectives. Still others describe the roles local Indigenous community groups have played in building urban Native American communities, from Dallas to Winnipeg. All the contributions to this volume show how, from colonial times to the present day, Indigenous people have shaped and been shaped by urban spaces. Collectively they demonstrate that urban history and Indigenous history are incomplete without each other. A history of the construction of the Glen Canyon Dam and social imbalances that resulted from it. From New York Times bestselling author J. A. Jance, a suspenseful mystery from the creator of Arizona sheriff Joanna Brady and Seattle homicide detective J. P. Beaumont. (Vocal Selections). This matching folio to the 2019 Broadway musical based in the 1988 film of the same name features 15 vocal arrangements with piano accompaniment. Songs include: Barbara 2.0 * Creepy Old Guy * Day-O (The Banana Boat Song) * Dead Mom * Fright of Their Lives * Girl Scout * Home * Jump in the Line * No Reason * Prologue: Invisible * Ready, Set, Not Yet * Say My Name * That Beautiful Sound * What I Know Now * The Whole "Being Dead" Thing. The latest edition of an accessible and comprehensive survey of Native America In this newly revised third edition of *Native America: A History*, Michael Leroy Oberg and Peter Jakob Olsen-Harbich deliver a thoroughly updated, incisive narrative history of North America's Indigenous peoples. The authors aim to provide readers with an overview of the principal themes and developments in Native American history, from the first peopling of the continent to the present, by following twelve Native communities whose histories serve as exemplars for the common experiences of North America's diverse Indigenous nations. This textbook centers the history of Native America and presents it as flowing through channels distinct from those of the United States. This is a history of nations not merely acted upon, but rather of those that have responded

to, resisted, ignored, and shaped the efforts of foreign powers to control their story. This new edition has been comprehensively updated in all its chapters and expanded with wider coverage of the most significant recent events and trends in Native America through the first two decades of the twenty-first century. *Native America: A History, Third Edition* also includes: A survey of pre-Columbian North American traditions and the various ways in which these traditions were deployed to comprehend and respond to the arrival of Europeans. In-depth examinations of how Native nations navigated the challenges of colonialism and fought to survive while marginalized behind the frontiers of European empires and the United States. Nuanced analyses of how Indigenous peoples balanced the economic benefits offered by assimilation with the cultural and political imperatives of maintaining traditions and sovereignty. An accessible presentation of American tribal law and the strategies used by Native nations to establish government-to-government relationships with the United States despite the repeated failures of that state to honor its legal commitments. Perfect for undergraduate and graduate students seeking a broad historical treatment of Indigenous peoples in the United States, *Native America: A History, Third Edition* will earn a place in the libraries of anyone with an interest in seeking an authoritative and engaging survey of Native American history.

Can a sea be a settler? What if it is a sea that exists only in the form of incongruous, head-scratching contradictions: a wetland in a desert, a wildlife refuge that poisons birds, a body of water in which fish suffocate? Traci Brynne Voyles's history of the Salton Sea examines how settler colonialism restructures physical environments in ways that further Indigenous dispossession, racial capitalism, and degradation of the natural world. In other words, *The Settler Sea* asks how settler colonialism entraps nature to do settlers' work for them. The Salton Sea, Southern California's largest inland body of water, occupies the space between the lush agricultural farmland of the Imperial Valley and the austere desert called "America's Sahara." The sea sits near the boundary between the United States and Mexico and lies at the often-contested intersections of the sovereign lands of the Torres

Martinez Desert Cahuilla and the state of California. Created in 1905, when overflow from the Colorado River combined with a poorly constructed irrigation system to cause the whole river to flow into the desert, this human-maintained body of water has been considered a looming environmental disaster. The Salton Sea's very precariousness—the way it sits uncomfortably between worlds, existing always in the interstices of human and natural influences, between desert and wetland, between the skyward pull of the sun and the constant inflow of polluted water—is both a symptom and symbol of the larger precariousness of settler relationships to the environment, in the West and beyond. Voyles provides an innovative exploration of the Salton Sea, looking to the ways the sea, its origins, and its role in human life have been vital to the people who call this region home. "Field-defining research that will set the standard for understanding inequality in archaeological contexts"--Provided by publisher. Vols. 42-57 (1930-45) include separately paged reports of secretary-treasurer, auditor, roster of officials and other documents dealing with the activities of the association. This is a must-have resource for students, travelers, journalists, schools, government officials, diplomats, academics, professionals, and business people with a desire to know more about their world in the palm of their hand. Jamestown, the Lost Colony of Roanoke, and Plymouth Rock are central to America's mythic origin stories. Then, we are told, the main characters--the

"friendly" Native Americans who met the settlers--disappeared. But the history of the Lumbee Tribe of North Carolina demands that we tell a different story. As the largest tribe east of the Mississippi and one of the largest in the country, the Lumbees have survived in their original homelands, maintaining a distinct identity as Indians in a biracial South. In this passionately written, sweeping work of history, Malinda Maynor Lowery narrates the Lumbees' extraordinary story as never before. The Lumbees' journey as a people sheds new light on America's defining moments, from the first encounters with Europeans to the present day. How and why did the Lumbees both fight to establish the United States and resist the encroachments of its government? How have they not just survived, but thrived, through Civil War, Jim Crow, the civil rights movement, and the war on drugs, to ultimately establish their own constitutional government in the twenty-first century? Their fight for full federal acknowledgment continues to this day, while the Lumbee people's struggle for justice and self-determination continues to transform our view of the American experience. Readers of this book will never see Native American history the same way.

In *Westerns*, women transmit complicated cultural coding about the nature of westward expansionism, heroism, family life, manliness and American femininity. As the genre changes and matures, depictions of women have transitioned from traditional to more modern roles. *Frontier Feminine* charts these significant shifts in the Western's transmission of gender values and expectations and aims to expand the critical arena in which Western film is situated by acknowledging the importance of women in this genre. Award-winning author of *Under the Feet of Jesus*, Helena María Viramontes offers a profoundly gritty portrait of everyday life in L.A. in this lyrically muscular, artfully crafted novel. In the barrio of East Los Angeles, a group of unbreakable young women struggle to find their way through the turbulent urban landscape of the 1960s. Androgynous Turtle is a homeless gang member. Ana devotes herself to a mentally ill brother. Ermila is a teenager poised between childhood and political consciousness. And Tranquilina, the daughter of missionaries, finds hope in faith. In

prose that is potent and street tough, Viramontes has choreographed a tragic dance of death and rebirth. Julia Alvarez has called Viramontes "one of the important multicultural voices of American literature." *Their Dogs Came with Them* further proves the depth and talent of this essential author. Helena María Viramontes is the acclaimed author of *The Moths and Other Stories* and *Under the Feet of Jesus*, a novel; and the coeditor, with María Herrera-Sobek, of two collections: *Chicana (W)Rites: On Word and Film* and *Chicana Creativity and Criticism*. She is the recipient of the 2006 Luis Leal Award and the John Dos Passos Award for Literature, and her short stories and essays have been widely anthologized and adopted for classroom use and university study. Viramontes lives in Ithaca, New York, where she is a professor in the Department of English at Cornell University.

Today's Latinx motion pictures are built on the struggles—and victories—of prior decades. Earlier filmmakers threw open doors and cleared new paths for those of the twenty-first century to willfully reconstruct Latinx epics as well as the daily tragedies and triumphs of Latinx lives. Twenty-first-century Latinx film offers much to celebrate, but as noted pop culture critic Frederick Luis Aldama writes, there's still room to be purposefully critical. In *Latinx Ciné in the Twenty-First Century* contributors offer groundbreaking scholarship that does both, bringing together a comprehensive presentation of contemporary film and filmmakers from all corners of Latinx culture. The book's seven sections cover production techniques and evolving genres, profile those behind and in front of the camera, and explore the distribution and consumption of contemporary Latinx films. Chapters delve into issues that are timely, relevant, and influential, including representation or the lack thereof, identity and stereotypes, hybridity, immigration and detention, historical recuperation, and historical amnesia. With its capacious range and depth of vision, this timeless volume of cutting-edge scholarship blazes new paths in understanding the full complexities of twenty-first century Latinx filmmaking. The vital role of dance in enacting the embodied experiences of Indigenous peoples In Dancing Indigenous Worlds, Jacqueline Shea Murphy brings contemporary Indigenous dance makers into the spotlight, putting critical dance studies and Indigenous studies in conversation with one another in fresh and exciting new ways. Exploring Indigenous dance from North America and Aotearoa (New Zealand), she shows how dance artists communicate Indigenous ways of being, as well as generate a political force, engaging Indigenous understandings and histories. Following specific dance works over time, Shea Murphy interweaves analysis, personal narrative, and written contributions from multiple dance artists, demonstrating dance's crucial work in asserting and enacting Indigenous worldviews and the embodied experiences of Indigenous peoples. As Shea Murphy

asserts, these dance-making practices can not only disrupt the structures that European colonization feeds upon and strives to maintain, but they can also recalibrate contemporary dance. Based on more than twenty years of relationship building and research, Shea Murphy's work contributes to growing, and largely underreported, discourses on decolonizing dance studies, and the geopolitical, gendered, racial, and relational meanings that dance theorizes and negotiates. She also includes discussions about the ethics of writing about Indigenous knowledge and peoples as a non-Indigenous scholar, and models approaches for doing so within structures of ongoing reciprocal, respectful, responsible action. The city's 'Americanness' has been disputed throughout US history. Pronounced dead in the late twentieth century, cities have enjoyed a renaissance in the twenty-first. Engaging the history of urban promise and struggle as represented in literature, film, and visual arts, and drawing on work in the social sciences, *The City in American Literature and Culture* examines the large and local forces that shape urban space and city life and the street-level activity that remakes culture and identities as it contests injustice and separation. The first two sections examine a range of city spaces and lives; the final section brings the city into conversation with Marxist geography, critical race studies, trauma theory, slow/systemic violence, security theory, posthumanism, and critical regionalism, with a coda on city literature and democracy. *The Mulligan Participant's Guide* is designed to help you and your small group more fully engage in *The Mulligan* six-session DVD group study.
