Orchard of Hope (The Heart of Hollyhill Book #2) Nov 28 2020 It is 1964, and 14-year-old Jocie Brooke is about to have an unforgettable summer. Her father has found a new love, her hippie sister is about to have a baby, and her aunt is finally pleasurable to live with. But, when a black family from Chicago moves into the quiet hamlet of Holly County, Kentucky, Jocie finds herself befriending a boy that some townspeople shun. Due to the unspoken racial lines in this southern town, the presence of these newcomers sparks a smoldering fire of unrest that will change Holly County--and Jocie--forever. Orchard of Hope, the riveting sequel to The Scent of Lilacs, takes readers along to experience unexpected love, fear, forgiveness, new life, and a deeper understanding of the value of each individual's story.

Metaphysics Nov 21 2022 Arthur Madigan presents a clear, accurate new translation of the third book (Beta) of Aristotle's Metaphysics, together with two related chapters from the eleventh book (Kappa). Madigan's accompanying commentary gives detailed guidance to these texts, in which Aristotle sets out what he takes to be the main problems of metaphysics or 'first philosophy' and assesses possible solutions to them.

Research to Revenue Oct 20 2022 University start-ups are unique in the world of business and entrepreneurship, translating research conducted at and owned by universities into market-ready products--a complex process that requires a combination of scientific, technical, legal, business, and financial skills to be successful. Start-ups have the potential to generate revenue for universities, enhance faculty recruitment and retention, create jobs, and create investment opportunities for venture capitalists and entrepreneurs. Research to Revenue presents the first-ever comprehensive guide to understanding, starting, and managing university startups. By systematically describing the process of translating academic research into commercial enterprises, Don Rose and Cam Patterson give a thorough, process-oriented, and practical set of guidelines that cover not only best practices but also common--and avoidable--mistakes. They detail the key factors and components that contribute to a successful start-up, explain what makes university start-ups unique, delineate the steps of building and managing them, and describe how to foster and maintain start-ups at a university. Written for faculty and staff working on campus, tech-transfer officers, university administrators, and venture capitalists unfamiliar with university structures, Research to Revenue ensures that any reader unfamiliar with technology commercialization and entrepreneurship will understand the fundamentals of the process, including intellectual property rights, fund-raising, and business models. This work is an invaluable resource for the successful formation and well-managed operation of university start-ups.
