**The Last Fortress of Congress Dominance** May 15 2022 Focused mainly on Maharashtra's politics since the 1990s, *The Last Fortress of Congress Dominance* also provides its readers a clear view of the historical context and the socio-political forces that have dominated the state since the 1950s. The politics of Maharashtra has been woven around two key factors: the Congress party and the Marathas. Attempts by the Shiv Sena and the BJP to emerge as alternatives to the Congress have had only limited success so far. As the state politics witnesses the transition into a new party system, the book presents a detailed study on the party system of Maharashtra and situates the analysis in the broader context of crisis of the Marathas and the many distortions of the state's political economy. Aided by rich survey data from the National Election Studies, for all elections since 1996, the book presents a long-term view of the politics of Maharashtra as the state completes 60 years of its existence.

**Knowledge Integration Strategies for Entrepreneurship and Sustainability** Jun 04 2021 Information is considered essential in every business model. Effective usage of this information to direct goals and drive missions can lead to successful enterprises. *Knowledge Integration Strategies for Entrepreneurship and Sustainability* is a critical reference source that expounds upon the critical methods in which new information is integrated into existing models for starting new companies and the ways in which these models interact and affect each other. Featuring coverage on a broad range of topics, such as tacit knowledge utilization, knowledge retention in small and medium-sized enterprises (SMEs), and knowledge dynamics in supply chain management, this book is geared toward academicians, researchers, and students seeking current research on the effect of information management in the interdisciplinary world of business creation as well as enterprise stability and longevity.

**DIGITAL LIBRARIES** Oct 20 2022 The book is grouped under five main sub-themes as: Theme 1: Planning Development and Management of Digital Libraries; Theme 2: Collection Development in Digital Environment; Theme 3: Resource Sharing and Networking; Theme 4: New Technologies and Adaptability; Theme 5: Change Management Issues and Strategies.

**26 Years UPSC IAS/ IPS Prelims Topic-wise Solved Papers 1 & 2 (1995 - 2020) 11th Edition** Apr 02 2021

**Data Management, Analytics and Innovation** Jul 25 2020 The book presents the latest, high-quality, technical contributions and research findings in the areas of data management and smart computing, big data management, artificial intelligence and data analytics, along with advances in network technologies. It discusses state-of-the-art topics as well as the challenges and solutions for future development. It includes original and previously unpublished international research work highlighting research domains from different perspectives. This book is mainly intended for researchers and practitioners in academia and industry.

**Advances in Civil Engineering and Building Materials** Mar 13 2022 *Advances in Civil Engineering and Building Materials* presents the state-of-the-art development in: - Structural Engineering - Road & Bridge Engineering- Geotechnical Engineering- Architecture & Urban Planning- Transportation Engineering- Hydraulic Engineering - Engineering Management- Computational Mechanics- Construction Technology- Buildi

**(Free Sample) Guide to MH-SET Paper 1 for Assistant Professor with Past Questions** Nov 21 2022

**Research Advances in the Integration of Big Data and Smart Computing** Jun 23 2020 The volume, complexity, and irregularity of computational data in modern algorithms and simulations necessitates an unorthodox approach to computing. Understanding the facets and possibilities of soft computing algorithms is necessary for the accurate and timely processing of complex data. *Research Advances in the Integration of Big Data and Smart Computing* builds on the available literature in the realm of Big Data while providing further research opportunities in this dynamic field. This publication provides the resources necessary for technology developers, scientists, and policymakers to adopt and implement new paradigms in computational methods across the globe. The chapters in this publication advance the body of knowledge on soft computing techniques through topics such as transmission control protocol for mobile ad hoc networks, feature extraction, comparative analysis of filtering techniques, big data in economic policy, and advanced dimensionality reduction methods.

**29 Years UPSC IAS/ IPS Prelims General Studies Topic-wise Solved Papers 1 (1994 - 2022 ) with Detailed**

**Solutions** Sep 07 2021 This Edition of UPSC Prelims Paper 1 (General Studies) book has been made to meet the requirements of candidates appearing in UPSC Prelims 2023. This volume covers the questions of the UPSC Paper 1 of the last 29 years (1994-2022) including of latest conduct exam of UPSC Prelims 2022. For easy understanding and to provide in-depth explanations, all questions have been classified in six major chapters and each chapter is

again divided into topics, so that aspirants can adopt the systemic approach of study. All chapters are prepared according to the syllabus of the UPSC Prelims Paper 1, which History of India and Indian National Movement, Geography of India and World, Polity and Governance, Indian Economy and Social Development, General Science, Technology and Environment, General Knowledge and Current Affairs. The book is also contain a topic-wise analysis of previous years UPSC Prelims questions which is necessary for proper strengthening of subjects.

**Authorization and Access Control** Sep 26 2020 This book focuses on various authorization and access control techniques, threats and attack modeling, including an overview of the Open Authorization 2.0 (OAuth 2.0) framework along with user-managed access (UMA) and security analysis. Important key concepts are discussed regarding login credentials with restricted access to third parties with a primary account as a resource server. A detailed protocol overview and authorization process, along with security analysis of OAuth 2.0, are also discussed in the book. Case studies of websites with vulnerability issues are included. **FEATURES** Provides an overview of the security challenges of IoT and mitigation techniques with a focus on authorization and access control mechanisms Discusses a behavioral analysis of threats and attacks using UML base modeling Covers the use of the OAuth 2.0 Protocol and UMA for connecting web applications Includes role-based access control (RBAC), discretionary access control (DAC), mandatory access control (MAC) and permission-based access control (PBAC) Explores how to provide access to third-party web applications through a resource server by use of a secured and reliable OAuth 2.0 framework This book is for researchers and professionals who are engaged in IT security, auditing and computer engineering.

*Veterinary Science: Breakthroughs in Research and Practice* Aug 18 2022 Modern medicine is changing drastically as new technologies emerge to transform the way in which patients are diagnosed, treated, and monitored. In particular, veterinary medicine is experiencing a tremendous shift as digital innovations are integrated into veterinary practice. *Veterinary Science: Breakthroughs in Research and Practice* contains a compendium of the latest academic material on breakthroughs and recent progress in veterinary science. Including innovative studies on laboratory information management systems, animal welfare, and veterinary reform, this publication is an ideal source for professionals, practitioners, graduate students, and researchers interested in veterinary science.

25 Years UPSC IAS/ IPS Prelims Topic-wise Solved Papers 1 & 2 (1995-2019) 10th Edition Nov 16 2019 The thoroughly Revised and Updated 10th edition of Disha's BESTSELLER "UPSC IAS/ IPS Prelims Topic-wise Solved Papers 1 & 2 (1995-2019)" consists of past years solved papers of the General Studies Paper 1 & 2 distributed into 8 Units and 52 Topics. The book has been empowered with Unique Inputs/ Articles by one of the Most esteemed faculties for IAS - Mrunal on 'Understanding the IAS Exam & Strategies to Crack the Prelim & Main Exam', How to Attempt the IAS Main Exam Questions?, How to write Essays for GS IV Main exam, along with Solutions to 2017-19 exams. The book provides UNSOLVED Mains Papers from 2013-18, divided topic-wise. The book also provides List of Essays divided topic-wise from 1993-2018. The strength of the book lies in the Errorless DETAILED Solutions. The book is 100% useful for both the General Studies papers (1 and 2) of the Prelims/ CSAT.

**27 Years UPSC IAS/ IPS Prelims (General Studies) Topic-wise Solved Papers 1 (1994 - 2020 ) with Detailed Solutions** Aug 06 2021 This Edition of UPSC Prelims Paper 1 (General Studies) book has been made to meet the requirements of candidates appearing in UPSC Prelims 2021. This volume covers the questions of the UPSC Paper 1 of the last 27 years (1994-2020) including of latest conduct exam of UPSC Prelims 2020. For easy understanding and to provide in-depth explanations, all questions have been classified in six major chapters and each chapter is again divided into topics, so that aspirants can adopt the systemic approach of study. All chapters are prepared according to the syllabus of the UPSC Prelims Paper 1, which History of India and Indian National Movement, Geography of India and World, Polity and Governance, Indian Economy and Social Development, General Science, Technology and Environment, General Knowledge and Current Affairs. The book is also contain a topic-wise analysis of previous years UPSC Prelims questions which is necessary for proper strengthening of subjects.

Emerging Physics Feb 18 2020 This book is designed as per the new Curriculum conceived for the students of B.Sc. (Physics). Although the approach is primarily qualitative, a reasonably large number of illustrative examples and segregated exercises are included, wherever possible, to ensure that the students develop a taste of real rigour of physics.

**Artificial Intelligence in Information and Communication Technologies, Healthcare and Education** Oct 16 2019 *Artificial Intelligence in Information and Communication Technologies, Healthcare and Education: A Roadmap Ahead* is designed as a reference text and discusses inter-dependability, communication and effective control for the betterment of services through artificial intelligence (AI), as well as the challenges and path ahead for AI in computing and control across different domains of business and human life. The book accommodates technologies and application domains including backbone hardware, systems and methods for deployment, which help incorporating intelligence through different supervised and probabilistic learning approaches. Features The

book attempts to establish a connection between hardware, software technologies and algorithmic intelligence for data analysis and decision support in domains such as healthcare, education and other aspects of business and mobility. It presents various recent applications of artificial intelligence in information and communication technologies such as search and optimization methods, machine learning, data representation and ontologies, and multi-agent systems. The book provides a collection of different case studies with experimentation results than mere theoretical and generalized approaches. Covers most of the applications using the trending technologies like machine learning (ML), data science (DS), Internet of Things (IoT), and underlying information and communication technologies. The book is aimed primarily at advanced undergraduates and postgraduate students studying computer science, computer applications, and information technology. Researchers and professionals will also find this book useful.

*Buddhist Texts and Traditions* Nov 09 2021

**Proceedings of Data Analytics and Management** May 23 2020 This book includes original unpublished contributions presented at the International Conference on Data Analytics and Management (ICDAM 2021), held at Jan Wzykowski University, Poland, during June 2021. The book covers the topics in data analytics, data management, big data, computational intelligence, and communication networks. The book presents innovative work by leading academics, researchers, and experts from industry which is useful for young researchers and students.

*6 YEAR-WISE Solved Papers - Intelligence Bureau Assistant Central Intelligence Officer Grade-II/ Executive (Tier-I) Exam* Jul 17 2022

**Yoga in Transformation** Oct 08 2021 This volume explores aspects of yoga over a period of about 2500 years. In its first part, it investigates facets of the South Asian and Tibetan traditions of yoga, such as the evolution of posture practice, the relationship between yoga and sex, yoga in the theistic context, the influence of Buddhism on early yoga, and the encounter of Islam with classical yoga. The second part addresses aspects of modern globalised yoga and its historical formation, as for example the emergence of yoga in Viennese occultism, the integration of yoga and nature cure in modern India, the eventisation of yoga in a global setting, and the development of Patañjali's iconography. In keeping with the current trend in yoga studies, the emphasis of the volume is on the practice of yoga and its theoretical underpinnings.

**(Free Sample) MH-SET Paper 1 Guide for Assistant Professor with Past Questions** Jan 23 2023

*Covid-19: The Preventive Protocol for Educational Institutions* Feb 12 2022 Corona virus named as COVID-19 emanated from Wuhan, China and as of today it has its footprints in more than 185 countries across the globe. There are over 3.5 million people who have been reported infected and more than 2,50,000 people who have died across the world. This has been considered one of the fastest growing influenza virus. In terms of WHO, COVID-19 is a respiratory disease and most infected people will develop mild to moderate symptoms and might recover without requiring special treatment. People who have underlying medical conditions like diabetes, cardiovascular issue, lungs infections, kidney problems etc. and those over 60 years old have a higher risk of developing severe disease and death. Common Symptoms are: · Fever · Sneezing · Tiredness · Dry Cough. Shortness of Breath Aches and Pains Sore throat Few people will report diarrhea, nausea or a runny nose, as well. Chill Chilling fever Prevention: To prevent infection and to slow transmission, do the following: Wash your hands regularly with soap and water, or clean them with alcohol-based hand rub/ sanitizer. Maintain at least 1 meter distance between you and people coughing or sneezing. Avoid touching your face. Cover your mouth and nose when coughing or sneezing. Stay home if you feel unwell. Refrain from smoking and other activities that weaken the lungs. Practice physical distancing by avoiding unnecessary travel and staying away from large groups of people and gathering. COVID-19, has already been declared as pandemic, and is spreading rapidly taking the world by surprise, causing a great deal of uncertainty for the next phase of the disease as well as for the global economy. Epidemiologists suggest that the virus is highly transmissible and can cause nationally incapacitating epidemics once transmission within the community is established. Every Industry thus needs to chalk out strategic approach to tackle its further spread. Irrespective of the nature of the operations we are engaged in our industry, certain preventive protocol will have to put into practice. This idea is sourced from the fundamental that we belong to varied and different environmental conditions. In these circumstances, like in the war, no one can be considered above the law and yes, this formulation of understanding has always paid the results. It is more so when the survival and existence of the entire humanity is at stake. Therefore, as good netizens, we must submit ourselves to this much needed scrutiny. For our collective health assurance and preventive protocol, few examples of such preventive equipment needed to be installed at our workplaces – refer to Appendix - 1. First example (as illustration) is of a full body sanitization machine that can be installed at the main entrance of the department/ college/ institute to ensure that every visitor – existing or new, senior or junior, necessarily, has to pass through this machine. Besides, we also need to provide PPE – Personal Protection Equipment, to certain category of employees who are constantly operating in vulnerable conditions and need extra protection from any undue exposure to harmful environment. To all such employees we need to provide

personal protective gear. An example of PPE is placed at Appendix – 2, that can be procured by all departments/ colleges/ institutes. We at Savitribai Phule Pune University (SPPU) cannot operate in isolation, thus need to follow a comprehensive and well-structured preventive approach. An elaborate department/ section-wise preventive approach to be followed by our university departments and affiliated colleges/ institutes has been compiled and placed in the chapters hereafter for strict compliance by all stakeholders. Meanwhile a generic list of common points is also enumerated below for adherence:

- Every higher educational institution has to follow Social Distancing guidelines besides avoiding large gathering for next academic year
- The medical history of each and every staff member and students is required to be maintained for safety reasons and this should be done by submitting the self-disclosure on the day of their resuming the duty/ classes. Self-disclosure form placed at Annexure – 1.
- Students and staff should submit self-disclosure related to any one from their family members having been affected / treated with corona treatment.
- Sanitization and Fumigation of entire campus/ classrooms and college premises should be carried out scrupulously.
- All staff and visitors should be subjected to non-contact thermal scanner check or temperature check at the time of entry
- For initial few months colleges/ Institutes should install a gate with sanitizer spray machine at the entrance of college and each and every staff should enter through that gate.
- Use of Hand sanitizer and face masks should be made compulsory until the end of December 2020 or till further order
- Each institute should introduce and run health and hygiene awareness program and every student must undergo such program
- First aid kits in the department/ college/ institute should be fully equipped at all times including certain medicines related to flu and fever.
- Every Department/ College/ Institute should keep their Ambulance always in alert/ ready mode with its driver and assistant always available.
- Institutions should incorporate disaster mitigation and post disaster training programs primarily to NSS and NCC students.
- Departments/ Colleges/ Institutes need to be vigilant in observing and identifying any Corona like symptoms amongst their faculty and students. If found, they should be immediately reported to the respective health centres. Every challenge throws up new opportunities and it is up to the wise men how they take everything in their stride. This lockdown because of Covid-19 has also opened plethora of new windows of learning provided we are ready for the change – the change that will take us to untrodden highways. Thus, to mitigate any academic loss to students, university additionally emphasizes on the teaching fraternity to look for new horizons and devise innovative ways and means of imparting learning. Following steps therefore, are suggested for academic persuasion to teaching fraternity:

*Research Methodology* Sep 19 2022 This book offers a design research methodology intended to improve the quality of design research- its academic credibility, industrial significance and societal contribution by enabling more thorough, efficient and effective procedures.

**A Handbook on Teaching & Research Aptitude (General Paper -I of UGC-NET/SET/JRF & PET Exams)** Feb 24 2023 Preface UGC NET exam pattern 2022 has been released by National Testing Agency (NTA) along with the official notification. As per the UGC NET 2022 exam pattern, the exam consists of two papers- Paper 1 and Paper 2. Both papers are comprised of objective-type multiple-choice questions (MCQs). There is no break between Paper 1 and 2. The exam will be conducted in Computer Based Test (CBT) mode. The medium of the UGC NET question paper is in English and Hindi languages only. Till December 2018, the UGC NET exam pattern was such that the test consisted of two papers (Paper 1 and 2) that were conducted in two different sessions. Candidates had to complete both the papers (Paper 1 and 2) in a duration of one and two hours, respectively. However, in June 2019, NTA changed the exam pattern as per which candidates now have to give both the papers in a single three-hour duration. In UGC NET Paper 1, the official website of NTA informs, "The questions will be generic in nature, intending to assess the teaching/research aptitude of the candidate. It will primarily be designed to test reasoning ability, comprehension, divergent thinking and general awareness of the candidate." This book 'A Handbook for General Paper on Teaching & Research Aptitude (Paper -I) of UGC-NET & PET Exams: A Crash Course for all Aspiring Students' (For All 101 Subjects) is an outcome of not just efforts from the authors, but contributions by many Research Scholars. We take this opportunity to thank all those who supported in publication of this book. Many research scholars have been kind enough to share their research works in form of Video sessions on Teaching & Research Aptitude, Power-point presentations, MCQs in google form etc, so that a larger section of the aspiring students can take a guideline in preparing for the exams. This Book also contains useful QR codes for direct link to various folders and files on the drive for Syllabi for UGC NET Paper-I & Various MCQ's on different Open-source websites. We owe to many authors and websites whose writings formed the basis for this book. Our special acknowledgment and thanks to Indira Gandhi Open University, New Delhi and their open source websites [www.ignou.ac.in](http://www.ignou.ac.in) & [www.egyankosh.ac.in](http://www.egyankosh.ac.in). We also take this opportunity to thank Amazon and Kindle Publishing for the publication of this book. At the end we would like to say that there is always a room for improvement in whatever we do. We would appreciate any suggestions and feedback regarding this book from the readers on [mukulburghate@gmail.com](mailto:mukulburghate@gmail.com) so that the book can be made more interesting and meaningful. Dr. Mukul Burghate I BE, FIE, M. Com, MBA, SET, NET Dr. Indu Mazumdar I MBA, DTM, NET Dr. Ram Panchariya I MBA, M. Com, NET Dr. Ninad Gawande I MBA, NET

**English Studies in India** May 03 2021 This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context. The discussions in this volume range from historical perspectives to classroom-specific pedagogies, from sociological and political hierarchies to the dynamics of intellectual development in the English language environment. Interrogating both policy and practice pertaining to English Studies in the context of Indian society, culture, history, literature and governance, the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities. Since the introduction of English to India more than 2 centuries ago, the language has transmuted the very fabric of Indian society, culture, history, literature and governance. The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation. The present globalized world order has added dimensions to English Studies which are radically different from those of India's colonial and postcolonial past. It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context. This volume is for scholars and researchers of English literature and language studies, linguistics, and culture studies, and others interested in exploring new paradigms of engagement with the disciplinary formulation of English Studies in India.

**TARGET SNAP 2021 (Past Papers 2005 - 2020) + 5 Mock Tests 13th Edition** Mar 01 2021

*Current Trends in the Representation of Physical Processes in Weather and Climate Models* Jan 11 2022 This book focuses on the development of physical parameterization over the last 2 to 3 decades and provides a roadmap for its future development. It covers important physical processes: convection, clouds, radiation, land-surface, and the orographic effect. The improvement of numerical models for predicting weather and climate at a variety of places and times has progressed globally. However, there are still several challenging areas, which need to be addressed with a better understanding of physical processes based on observations, and to subsequently be taken into account by means of improved parameterization. And this is all the more important since models are increasingly being used at higher horizontal and vertical resolutions. Encouraging debate on the cloud-resolving approach or the hybrid approach with parameterized convection and grid-scale cloud microphysics and its impact on models' intrinsic predictability, the book offers a motivating reference guide for all researchers whose work involves physical parameterization problems and numerical models.

**Proceeding of International Conference on Computational Science and Applications** Jun 16 2022 The book consists of high-quality papers presented at the International Conference on Computational Science and Applications (ICCSA 2019), held at Maharashtra Institute of Technology World Peace University, Pune, India, from 7 to 9 August 2019. It covers the latest innovations and developments in information and communication technology, discussing topics such as soft computing and intelligent systems, web of sensor networks, drone operating systems, web of sensor networks, wearable smart sensors, automated guided vehicles and many more.

On Strategy Aug 26 2020 The literature on the art of war over centuries presupposed that the decision maker was a single entity with a coherent and unitary political will. The ideal strategy maker was thus Alexander the Great, or a Napoleon. Little was written on the policy- and strategy-making process when there were multiple decision makers. Strategy in peace was recognized especially in the Cold War as something just as real as strategy war.

Exam Scorer Science - Class XI ( Chapterwise MCQs with 5 solved Model Papers for 2020 EXAM) Jul 05 2021 An excellent book for Science students appearing in competitive, professional and other examinations. 1. Physics, 2. Chemistry, 3. Biology, 4. Mathematics 5. English (Core), 6. English (Elective), 7. Hindi (Core), 8. Hindi (Elective)

*Library and Information Services for Bioinformatics Education and Research* Dec 10 2021 The delivery and availability of information resources is a vital concern to professionals across multiple fields. This is particularly vital to data intensive professions, where easy accessibility to high-quality information is a crucial component of their research. Library and Information Services for Bioinformatics Education and Research is an authoritative reference source for the latest scholarly material on the role of libraries for the effective delivery of information resources to optimize the study of biological data. Highlighting innovative perspectives across a range of topics, such as user assessment, collection development, and information accessibility, this publication is ideally designed for professionals, managers, computer scientists, graduate students, and practitioners actively involved in the field of bioinformatics.
