After creating man and woman, God's first recorded blessing upon them is "be fruitful and multiply." Like the blessings of food and health, the human experience of procreation is so common that we may overlook its importance within the biblical narrative. However, *I Will Surely Multiply Your Offspring*, a comprehensive examination of the progeny blessing, demonstrates that this motif is both prevalent and significant within the Old Testament by tracing its development throughout the redemptive-historical narrative. Viands identifies different progeny blessing traditions associated with the Abrahamic covenant, the Sinai covenant, and the new covenant, and describes their interrelationships as well as their relationship to the universal blessing first found in Genesis 1. This study lays the foundation for a biblical worldview of human proliferation, contributing to contemporary discussions concerning whether humans are obligated to bear children as well as procreation ethics. Why the 17:18 series? In

Deuteronomy 17, Moses is leaving final instructions concerning the future of Israel. As a prophet of God, Moses foretells of when Israel will place a king over the nation (v. 14). In verse 18, the king is commanded to not simply acquire a copy of the law (the entire book of Deuteronomy) from the "scroll publishing house," but to hand write his own copy of the law. Thirty-four hundred years later, educators are "discovering" that students that physically write out their notes by hand have a much greater retention rate than simply hearing or visually reading the information. Apparently, God knew this to be true of the kings of Israel also. From such understanding came the conception of this series of books. Since 1975 more than 2 million people preparing for their engineering, surveying, architecture, LEED®, interior design, and landscape architecture exams have entrusted their exam prep to PPI. With the withdrawal of French forces from South Vietnam in 1955, the U.S. took an ever-widening role in defending the country against invasion by North Vietnam. By 1965, the U.S. had "Americanized" the war, relegating the Army of the Republic of Vietnam (ARVN) to a supporting role. While the U.S. won many tactical victories, it had difficulty controlling the territory it fought for. As the war grew increasingly unpopular with the American public, the North Vietnamese launched two large-scale invasions in 1968 and 1972--both tactical defeats but strategic victories for the North that precipitated the U.S. policy of "Vietnamization," the drawdown of American forces that left the ARVN to fight alone. This book examines the maturation of the ARVN, and the major battles it fought from 1963 to its demise in 1975. Despite its flaws, the ARVN was a well-organized and disciplined force with an independent spirit and contributed enormously to the war effort. Had the U.S. "Vietnamized" the war earlier, it might have been won in 1967-1968. Milwaukeeans greeted the advent of World War II with the same determination as other Americans. Everyone felt the effect of the war, whether through concern for loved ones

in danger, longer work hours, consumer shortages, or participation in war service organizations and drives. Men and women workers produced the essential goods necessary for victory—the vehicles, weapons, munitions, and components for all the machinery of war. But even in wartime there were labor conflicts, fueled by the sacrifices and tensions of wartime life. *A City at War* focuses on the experience of working men and women in a community that was not a wartime boom town. It looks at the stands of the CIO and the AFL against low wartime wages, and at women in unionized factories facing the perceptions and goals of male workers, union leaders, and society itself. Here is a social history of wartime Milwaukee and its workers as they laid the groundwork for a secure postwar future. The voice of Francis J Moloney, SDB, has been heard in New Testament studies for many decades. Internationally famous for his work on the Gospel of John, this volume gathers studies that demonstrate the breadth and richness of his interests, beyond that well-established enterprise. The first part of the book is dedicated to Gospel studies, with the majority of essays focussing upon the Gospel of Mark. They reflect his long interest and his major commentary on that Gospel (2012). Studies on Matthew, Luke and John complete these reflections.

Audit – now there's a word that can strike terror into your heart. Whether it's the IRS looking over your shoulder or a quality tool utilized by your company, it requires accountability. A software audit monitors the development process and provides management with an independent view of the software development status. The purpose of this book is to remove the terror and error while improving the audit process. Software is not produced on a production line; the only thing that is the same on all software projects is that there is input and output. Everything in the middle is customized for the project at hand. Thus, *The Software Audit Guide* does not contain a one-size-fits-all approach. It gives a choice of areas to audit and different questions that should be asked within these areas. This book provides a flexible, user-friendly checklist of more than 1,300 questions designed to stimulate creative thinking that will ultimately result in the best possible software audit. A Bible student reference A New Testament prophecy of a falling away from truth into apostasy and lawlessness, in the final generation before Jesus Christ returns in glory, is being fulfilled now and is shortly to end. Yet Christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this – or that Christ's return is therefore now almost upon us! How and why this is the case is here explained thoroughly and logically with many examples directly from the word of God. In God's saving plan for the world, everyone must in time make a free will choice to become part of the 'Israel of God' in order to access eternal life in the kingdom of God. The route to take is the "strait and narrow" way (Mat 7:13-14) that very few have so far found, and it involves the biblical new and old covenants which both apply to this Israel. Embark on this voyage only if you are willing to: be challenged about some basic Christian preconceptions, be a serious open-minded Bible student, and trust what the Bible teaches - but remember that time is short. "What the Bible has taught me I see as both vital and urgent for our eternal salvation; yet I know of no church or individual theologian who teaches what this book deals with in any substantive way" "Be prepared for major challenges to your understanding just as God has challenged me." "In the epistles, Paul refers to two Israels whom he calls Israel after the flesh (I Cor 10:18) and the Israel of God (Gal 6:16); I focus mainly on the latter (but I also explain an

unexpected but critically important connection between them)” “Dependent on the teaching, nearly all Christian denominations either teach nothing at all on it or almost the opposite of what Scripture repeatedly showed me. Looking back, I find this absolutely staggering!” “Very few [Christians] understand that the new covenant also only applies to Israel (as I will clearly show).” “I no longer believe that the NT [New Testament] can be fully understood without this extra Israel dimension” “Had I felt I could deliver this in a more light-hearted way I would have done so, but its implications are too awesome and fundamental to our eternal life prospects for that”
