A sourcebook of exercises, games, scenarios and role plays, this practical, user-friendly guide provides a complete and valuable resource for research methods tutors, teachers and lecturers. Developed to complement and enhance existing course materials, the 100 ready-to-use activities encourage innovative and engaging classroom practice in seven areas: finding and using sources of information planning a research project conducting research using and analyzing data disseminating results acting ethically developing deeper research skills. Each of the activities is divided into a section on tutor notes and student handouts. Tutor notes contain clear guidance about the purpose, level and type of activity, along with a range of discussion notes that signpost key issues and research insights. Important terms, related activities and further reading suggestions are also included. Not only does the A4 format make the student handouts easy to photocopy, they are also available to download and print directly from the book's companion website for easy distribution in class. Since 1992, when it began as the "Medicine Meets Virtual Reality" conference, NextMed/MMVR has been a forum for researchers utilizing IT advances to improve diagnosis and therapy, medical education, and procedural training. Scientists and engineers, physicians and other care providers, educators and students, military medicine specialists, futurists, and industry: all come together with the shared goal of making healthcare more precise and effective. This book presents the proceedings of the 20th NextMed/MMVR conference, held in San Diego, California, USA, in February 2013. It covers a wide range of topics: simulation, modeling, imaging, data visualization, haptics, robotics, sensors, interfaces, plasma medicine, and more. Key applications include simulator design, information-guided therapies, learning tools, mental and physical rehabilitation, and intelligence networking. During the past two decades, healthcare has been transformed by progress in computer-enabled technology, and NextMed/MMVR has played a prominent role in this transformation. Improve Reading Comprehension While Learning Interesting Historical Facts! This book features high-interest, "on this date in history" stories for the month of November. Skills focus on: main idea, facts, locating the answer, vocabulary, sequence, comparison, cause and effect, fact or opinion, conclusion, and inference. Includes: 68 Pages Answer Key "As teachers today, everything we teach has to be turbo-charged with skills and the promise of advancing our students academically. Here's the cool thing: poetry can get you there. It is inherently turbo-charged. Poets distill a novel's worth of content and emotion in twenty lines. The literary elements and devices you need to teach are all there, powerful and miniature as a Bonsai tree." -Paul B. Janeczko You'd like to teach poetry with confidence and passion, but let's face it: poetry can be intimidating to both you and your students. Here is the book that takes the fear factor out of poetry and shows you how to use this powerful genre to spark student engagement and meet language arts requirements. Award-winning poet Paul B. Janeczko is the master for creating anthologies for pre-teen and adolescent readers, and here he's chosen 20 contemporary and classic selections with step-by-step, detailed lessons for investigating each poem from the inside out. Kids learn to become active readers of poetry, using graphic organizer worksheets to help them jump over their fear and dive into personal, smart, analytical responses. There's no better genre than poetry for helping students gain perspective on their own identities and their own worlds, and Paul provides a space on each reproducible poem for private thoughts, questions, feelings, and ideas. Your students will discover what each poem means to them. The 20 poems in this collection were chosen for their thought-provoking topics; compelling real-world themes that lead to conversation and collaboration in middle school classrooms. And by showing you how the poems and activities address the common core standards for English Language Arts (complete with a sample chart linking the poems to the standards), Paul provides a clear understanding of how you can "get there" using poetry. You can cultivate a passion for poetry in your classroom. Take the journey with Paul B. Janeczko and grow in confidence with your students, meeting some standards along the way. Improve Reading Comprehension While Learning Interesting Historical Facts!

This book features high-interest, "on this date in history" stories for the month of January. There is an historical nonfiction short story for each day of the month.
