A user friendly introduction to use and interpretation of quantitative methods for Business students. Too often, innovative individuals and teams come up with new-business ideas only to hit the proverbial wall, become discouraged, and fail to follow through. How can you get more traction with your ideas and see them through to fruition? As with so many things in life, half the battle is knowing what questions to ask. In this book, serial entrepreneur and business professor Jim Price illustrates a simple, yet powerful framework known as the Launch Lens. Price's method leads innovators through a structured process to clearly define and communicate their concept, distinguish the good ideas from the not-so-good, and lay the cornerstones of the startup planning process. The Launch Lens is comprised of twenty critical questions or Focal Points, organized

according to the classic new-business planning categories: problem, solution, market, business model, marketing and sales, finance, capital, and team. The book leads readers through explanations of how to address each question, illustrated by useful examples, tips, and red flags. Already in active use by thousands of innovators - ranging from aspiring entrepreneurs to early-stage startup teams and venture investors, from incubators and accelerators to intrapreneurs within established corporations and non-profits - The Launch Lens can help you bring your new-business concepts into clear focus. • 10 Sample Papers in each subject. 5 solved & 5 Self-Assessment Papers. • Strictly as per the latest syllabus, blueprint & design of the question paper issued by Karnataka Secondary Education Examination Board (KSEEB) for PUC exam. • Latest Board Examination Paper with Board Model Answer • On-Tips Notes & Revision Notes for Quick Revision • Mind Maps for better learning • Board-specified typologies of questions for exam success • Perfect answers with Board Scheme of Valuation • Hand written Toppers Answers for exam-oriented preparation • Includes Solved Board Model Papers.
